HOUSE of PURITY

Bring Home
GOOD HEALTH
and Hygiene

Improve
HYGIENE
for Well-being and Health.

BY KEEPING YOUR HOME VIRUS AND BACTERIA-FREE.

Which is precisely why our team of innovators leave no stone unturned in order to guarantee that every aspect of your home is defined by good hygiene.

Our range of Next-Gen appliances make it possible for you to leave all pollution and the impurities of the world behind, outside your doorstep. All you need to do is step inside and relax.

Unwind, as the pure air inside embraces you, or as you enjoy playtime with your child inside a clean and hygienic room.

Find your comfort zone in the sparkling corner of your bacteria-free home, as you sit on your spotless couch and sip your morning coffee.

Make your sweet abode as safe as you want it to be, by disinfecting and sanitizing and let your family enjoy the warm feeling of protection under one roof.

We assure you that with KENT by your side, home, and life, will always be purely blissful.

FEATURES

- Real time monitoring & display of PM 2.5 (Particulate Matter) for indoor air.
- HEPA (High Efficiency Particulate Arrestor) dust collection technology.
- UV LED Light which kills bacteria & Viruses or any other germs present within the air before it throws out clean & fresh air.
- High CADR (Clean Air Delivery Rate) of 400 m³/hr.
- Activated carbon filter removes odour and formaldehyde etc.
- Intelligent Air Quality monitoring.
- Filter change indicator
- KENT Alps+ UV comes with 4 different speed settings
- Suitable for a room size upto 43 sq.m.

KENT VEGETABLE CLEANER

Remove Pesticides, Bacteria, Viruses & Chemicals

Counter Top

KENT Vegetable Cleaner uses chemical-free Ozone Technology to remove pesticides, chemicals, etc. from the surface of vegetables, fruits and meat. It also removes bacteria, viruses and other germs from food and ensures safe and hygienic consumption.

OPERATIONS

- Take a bowl and fill it up with clean water
- Fill the container with the vegetables/ fruits/meat to be cleaned
- Dip the silicon tube with stone attached to its end in the container
- Switch on the machine by turning on the power switch
- The LED light flashes to indicate that the device is ready to be used
- Set the appropriate time depending upon the items to be cleaned
- Once the device stops automatically, remove the stone and throw away the water in the container
- Wash the vegetables/fruits in fresh water.
- The cleaned vegetables/fruits/meat are now ready for consumption
- If the cleaned items are not to be consumed immediately, wipe them dry and store for consumption later

FEATURES

- Based on Ozone Disinfection Technology, it kills bacteria, viruses, fungus and other pathogens
- Effectively oxidises residual chemicals from the surface of meat, vegetables and fruits
- Helps in cleaning antibiotics and hormones that invariably exist in meat, fish and other seafoods
- Does not use any consumables
- Increases freshness and shelf life of food items

KENT ULTIMA VEGETABLE CLEANER

Remove Pesticides, Bacteria, Viruses & Chemicals

KENT Ultima Vegetable Cleaner uses bio-friendly Ozone Technology to remove pesticides, chemicals, etc. from the surface of vegetables, fruits and meat. It also removes bacteria, viruses and other germs from food and ensures safe and hygienic consumption.

OPERATIONS

- Fill the detachable tank with water and the vegetables/fruits to be cleaned.
- Immerse the vegetables completely in water.
- Switch on the machine by turning on power switch (On/Off button). The LED light flashes to indicate that the device is ready to be used.
- Set the appropriate time (15 or 30 minutes) depending upon the items to be cleaned
- The device will automatically stop after the expiry of the set time. Once the device has stopped, remove the stone and throw away the water in the detachable tank.
- Wash the vegetables/fruits in fresh water.
- The cleaned vegetables/fruits are now ready for consumption. If the cleaned items are not to be consumed immediately, wipe them dry with a clean napkin or tissue paper and store them for later consumption.

FEATURES

- Easily cleans vegetables and fruits
- Easy to clean detachable tank
- Sleek and Modern design
- Oxidises residual chemicals from surface of vegetables
- Doesn't require any service or change of part
- Works on bio-friendly ozone technology which does not use any consumables
- Counter top/ Wall mountable

KENT OZONE ROOM DISINFECTANT

Disinfect Your Room Air By Ozone Gas & Keeps It Clean & Odour Free By Killing Bacteria & Viruses

KENT Ozone Room Disinfectant uses revolutionary Ozone Disinfection Technology to make your surroundings clean and hygienic. It is most suitable for room as it disinfects the air, killing the hidden bacteria, viruses and pathogens

OPERATIONS

- KENT Ozone Room Disinfectant has an Ozone Generator which generates environment-friendly Ozone Gas & removes bacteria & viruses from the atmosphere.
- Remote control to control the timings & levels of Ozone Gas.
- Fully automatic and easy to operate.

FEATURES

- Wall Mountable/Counter Top
- Kills bacteria, viruses and makes air pure.
- Eliminates the foul smell of smoke from the air.
- Has in-built modes for concentration and timing
- Effectively removes any smelly odour emanating from the toilet or lavatory.
- Suitable for large rooms up to 200 sq.ft. like office, living room, etc.
- Rapidly neutralizes stale and foul odours from the kitchen.

KENT OZONE CAR DISINFECTANT

Disinfect The Air Inside Your Car By Ozone Gas & Keeps It Clean & Odour Free By Killing Bacteria & Viruses

Now protect your family from harmful diseases and infections with KENT Ozone Car Disinfectant. It is based on revolutionary Ozone Disinfection Technology which uses atmospheric air to generate ozone that disinfects your car cabin air and removes bacteria and viruses.

OPERATIONS

- KENT Ozone Car Disinfectant has an Ozone Generator inside which generates environment-friendly Ozone Gas.
- This Ozone Gas kills the bacteria and viruses and neutralizes stale odour.
- The light indicate the completion of the disinfection process.
- It is easy to operate and can be connected to the cigarette lighter socket.

FEATURES

- Kills bacteria and viruses without leaving any remnants.
- Inner fan is designed to 'spray' the Ozone quietly and effectively.
- Has in-built modes for concentration and timing
- Removes cigarette stench and mildew on seats.

KENT OZONE DISINFECTION BOX

Disinfect Your Everyday Essentials
With Ozone Disinfection Technology

It is the need of the hour to kill viruses from daily essentials with Ozone Disinfection Box. It helps in killing bacteria and viruses hidden on the surface.

OPERATIONS

- Close the lid. Switch ON the 'Power Switch'. Red light will turn on.
- Orange light will start blinking, indicating the start of Ozone generation.
- After two minutes, Orange light will be fully on, indicating the end of Ozone generation
- After 18 minutes of disinfection, Green light will switch on and the buzzer sound will confirm the completion of disinfection process.
- Open the lid and remove the contents.

FEATURES

- KENT Ozone Disinfection Box has an Ozone Generator inside which generates environment-friendly Ozone Gas
- This Ozone Gas penetrates 100% of the surface and goes into the pores, thereby killing the hidden bacteria, viruses and pathogens
- It is fully automatic and easy to operate.
- It is useful for disinfecting small handheld items and everyday essentials which include: doctor items, baby items, shop items, home items like - cotton gloves, cotton masks, currency, mobile, house & car keys, wallets, earphones, credit card machines, stethoscope, milk bottles etc.

KENT AUTO SANITISER

Fully Automatic Touchless Sanitiser Spray For Factories, Offices, Hospitals, Malls, Railways, Shops & Homes

This unique, touchless KENT Auto Sanitiser comes with a high storage capacity of 12L & 6L and is apt for use in office and public places. It has an in-built infrared smart sensor that automatically dispenses liquid sanitiser in the form of atomized mist by sensing your hands as you place it below the spout.

OPERATIONS

- Place your hand below the bottom of the dispenser at the middle
- Required adjustable quantity of the sanitiser gets sprayed
- Dispenser become ready for the next person after 3 seconds

FEATURES

- Transparent tank for sanitiser
- High Storage Capacity of 12L & 6L
- Removable tank for cleaning and easy refilling
- Fully automatic and touchless use for hands free operation
- Optimal and powerful spray
- Light on the hand along with the spray to display dispensing
- Bulk Sanitiser are economical in longer run
- Ensures optimum hygiene in public places
- Facilitates smooth usage
- Zero-drop design minimizes leakage and ensures high precision in disinfecting hands
- Sprays the right amount of sanitiser

KENT TOUCHLESS FOAMING SOAP DISPENSER

Converts Liquid Soap Into Foam & Dispenses Touchless

This unique KENT Touchless Foaming Soap Dispenser comes with a storage capacity of 350 ml and is apt for use at home & offices. It converts liquid soap into foam, and its in-built infrared smart sensor dispenses foaming soap automatically by sensing your hands as you place it below the spout.

OPERATIONS

- Place your hand below the nozzle of the dispenser
- Dispenses the right amount of foaming soap
- Dispenser become ready for the next person after 3 seconds

FEATURES

- Built-in Infrared Sensor
- Ensures optimum hygiene at home
- Fill the container with 50% liquid soap and 50% water. It converts the liquid soap into foam while dispensing it
- Adjustable foam volume with 2 variable speeds
- Dispenses the right amount of foaming soap
- Zero Drop design minimizes leakage and ensures high precision in disinfecting hands
- Gives great experience of washing hands with soap foam

KENT TOUCHLESS SANITISER

Disinfect Your Hands By Killing Bacteria & Viruses With Automatic Touchless Sanitiser

This unique KENT Touchless Sanitiser Dispenser comes with a storage capacity of 350 ml and is apt for use at home & offices. It has an in-built infrared smart sensor that automatically dispenses liquid sanitiser in the form of atomized mist by sensing your hands as you place it below the spout.

OPERATIONS

- Place your hand below the nozzle of the dispenser at the middle
- Required quantity of the sanitiser gets sprayed
- Dispenser become ready for the next person after 3 seconds

FEATURES

- Built-in Infrared Sensor
- Ensures optimum hygiene at home/office
- Adjustable sanitiser volume with 2 variable speeds
- Facilitates smooth usage
- Zero Drop design minimizes leakage and ensures high precision in disinfecting hands
- Sprays the right amount of sanitiser
- Environmental Friendly Material

KENT FORCE

Cyclonic Vacuum Cleaner

KENT Force Cyclonic Vacuum Cleaner uses futuristic and state-of-the-art Cyclonic technology and HEPA filters. It does not use filtration bags, instead air and dust are sucked at high speed creating a fast-spinning vortex and the dust is separated in a detachable cylindrical collection vessel or bin.

FEATURES

- Advanced Cyclonic Technology (without filtration bags) vacuum cleaner for dust collection and HEPA (High Efficiency Particulate Arrestor) based discharge filter
- HEPA (High Efficiency Particulate Arrestor) based discharge filter arrests particulate matters
- Ideal cleaning tool for the entire house
- High efficiency motor with strong suction force ensures efficient cleaning
- Reduces air pollution due to lower dust and particulate matter (PM) discharge
- Operates without making much noise
- Sends out alerts when dust container is full
- Unique helical 'V' brush technology for higher efficiency
- Rubberised wheels and low noise
- 'Dust Container Full' indicator

KENT ZOOM

Cordless, Hoseless & Rechargeable
Vacuum Cleaner

KENT Zoom Vacuum Cleaner uses futuristic and state-of-the-art Cyclonic technology and HEPA filters. The air and dust are sucked at high speed creating a fast-spinning vortex while the dust is separated in a detachable cylindrical collection vessel or bin.

FEATURES

- Advanced Force Technology (without filtration bags) ensures optimum dust collection
- HEPA (High Efficiency Particulate Arrestor) based discharge filter arrests particulate matters
- Multi Nozzle Operation – for cleaning surfaces like curtains, carpets & sofas
- Handy Fold Operation – for cleaning surfaces like carpets & sofas
- Motorized Floor Brush – for cleaning surfaces like carpets & floors
- Vacuum cleans floor, curtains, carpets, etc.
- Works for 30 minutes continuously after the batteries are fully charged
- Ensures convenient & fast operation
- Reduces air pollution
